Please note, the above is representative of Open's current self-pay pricing per service through December 31, 2025. Additional standard IVF services not included in package pricing and individual procedures, including required testing, will be incremental. Once you and your physician work together to establish an individualized treatment plan, Open's finance team will send you a full breakdown of costs tailored to your insurance coverage and plan.

* Medications are not included in packages

To support flexibility in payment options, we're pleased to offer a 2.5% discount on services and treatment over $1,000 when payments are made using cash, check, wire or ACH transfer. This discount applies at the time of payment and is available for patients who choose one of these payment methods. To take advantage of this discount, please contact your financial counselor before your baseline appointment.
